

**Your secure spaces**

**Our proactive solution**

# Small disruptions can mean **big** costs for business

**Unforeseen incidents can be costly to remedy.** Issues such as equipment breakdown, theft, vandalism or Health & Safety violations can often lead to significant operational disruption.

**Many companies take a reactive approach when it comes to disruptions.** Protecting vulnerable spaces often means scanning captured imagery after the fact, and scrambling to fix any issues.

**Tracking the events that matter.** Without an easy-to-use tool that keeps an eye on your sites and assets, stopping problems before they occur is no mean feat.

# That's where Vodafone's Smart Wireless Camera comes in

Our easy-to-deploy solution provides quick-start surveillance that lets you track events from anywhere you want, helping to deter, discover and resolve issues fast.

# Secure vulnerable spaces quicker than ever before

With Smart Wireless Camera, your business can:

## Prevent

Our camera makes it easy to prevent problems and deter criminals, with the ability to quickly install and redeploy anywhere.

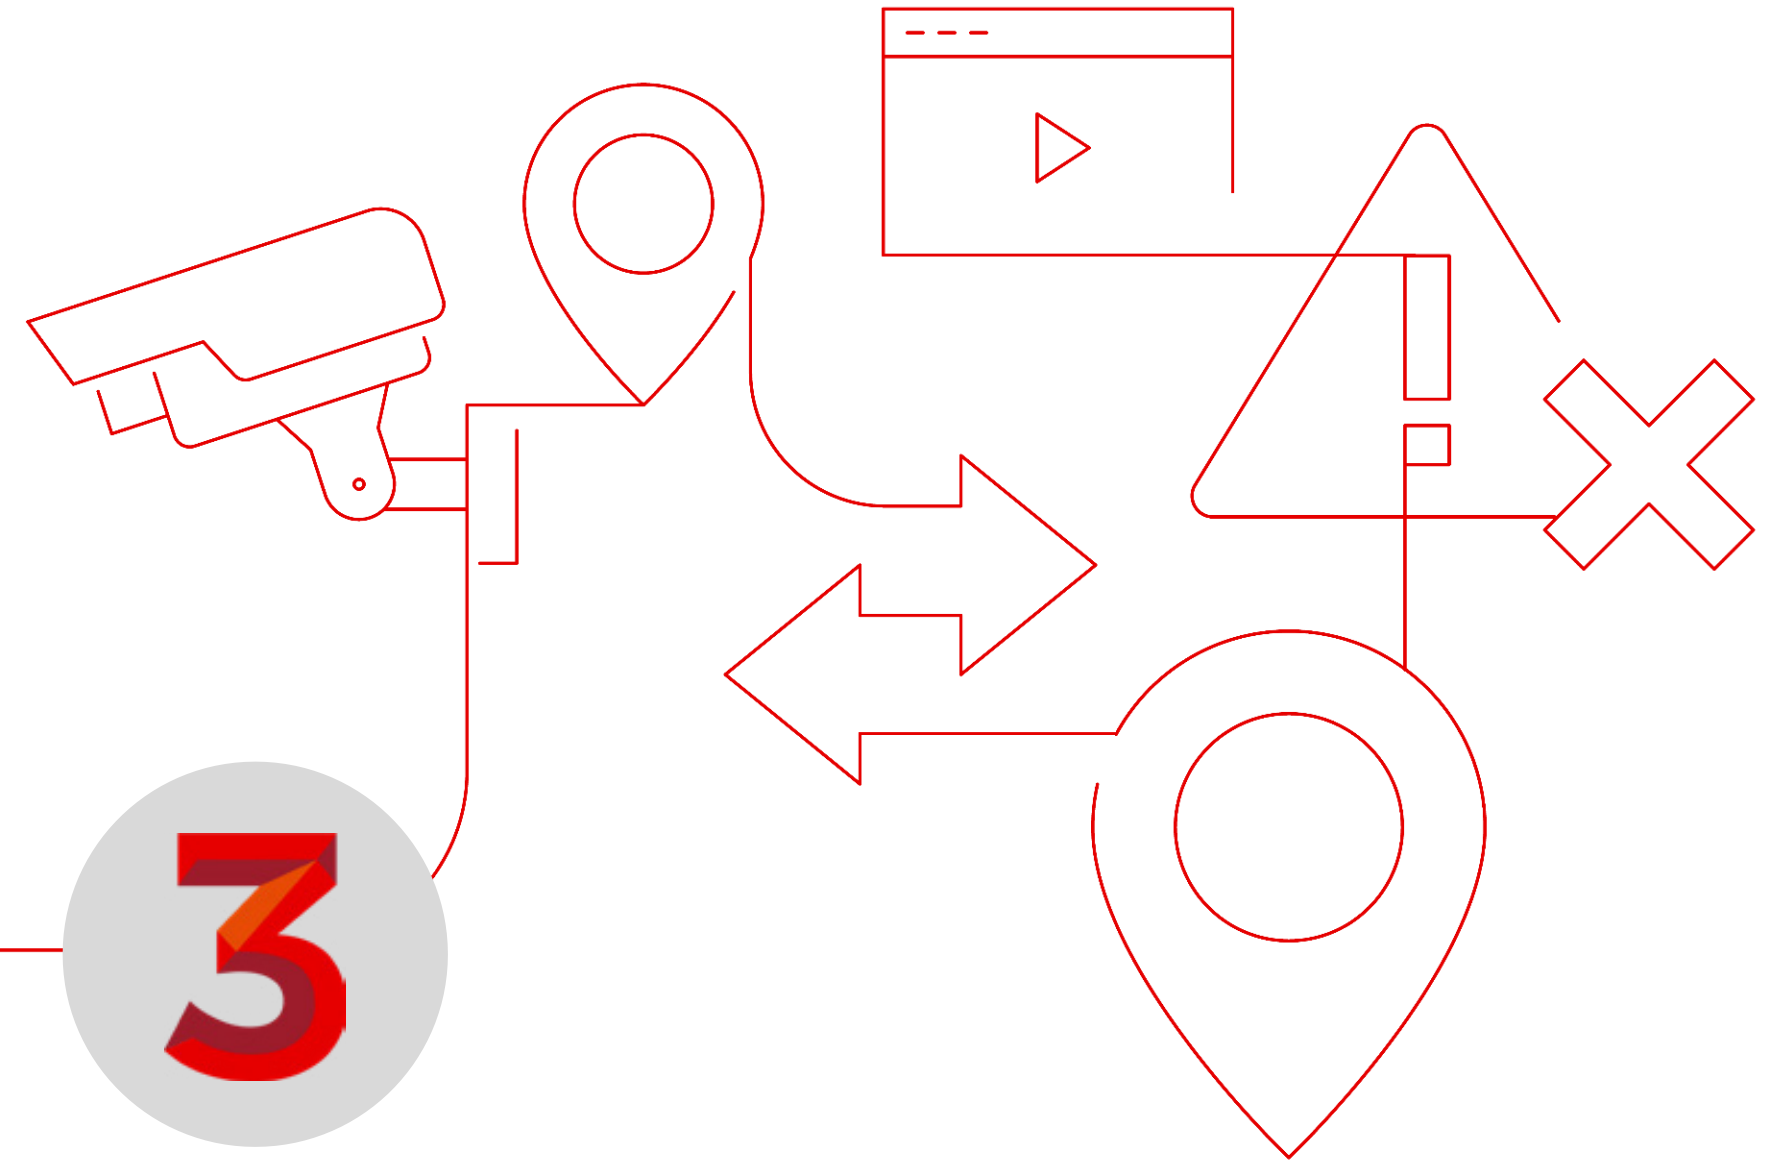

## Discover

The tool gives real-time alerts so every incident is flagged, ensuring you never miss a moment.

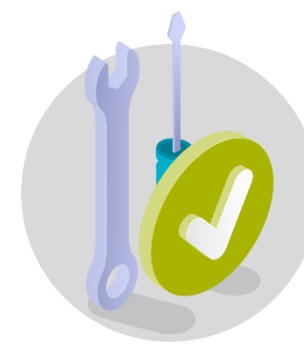

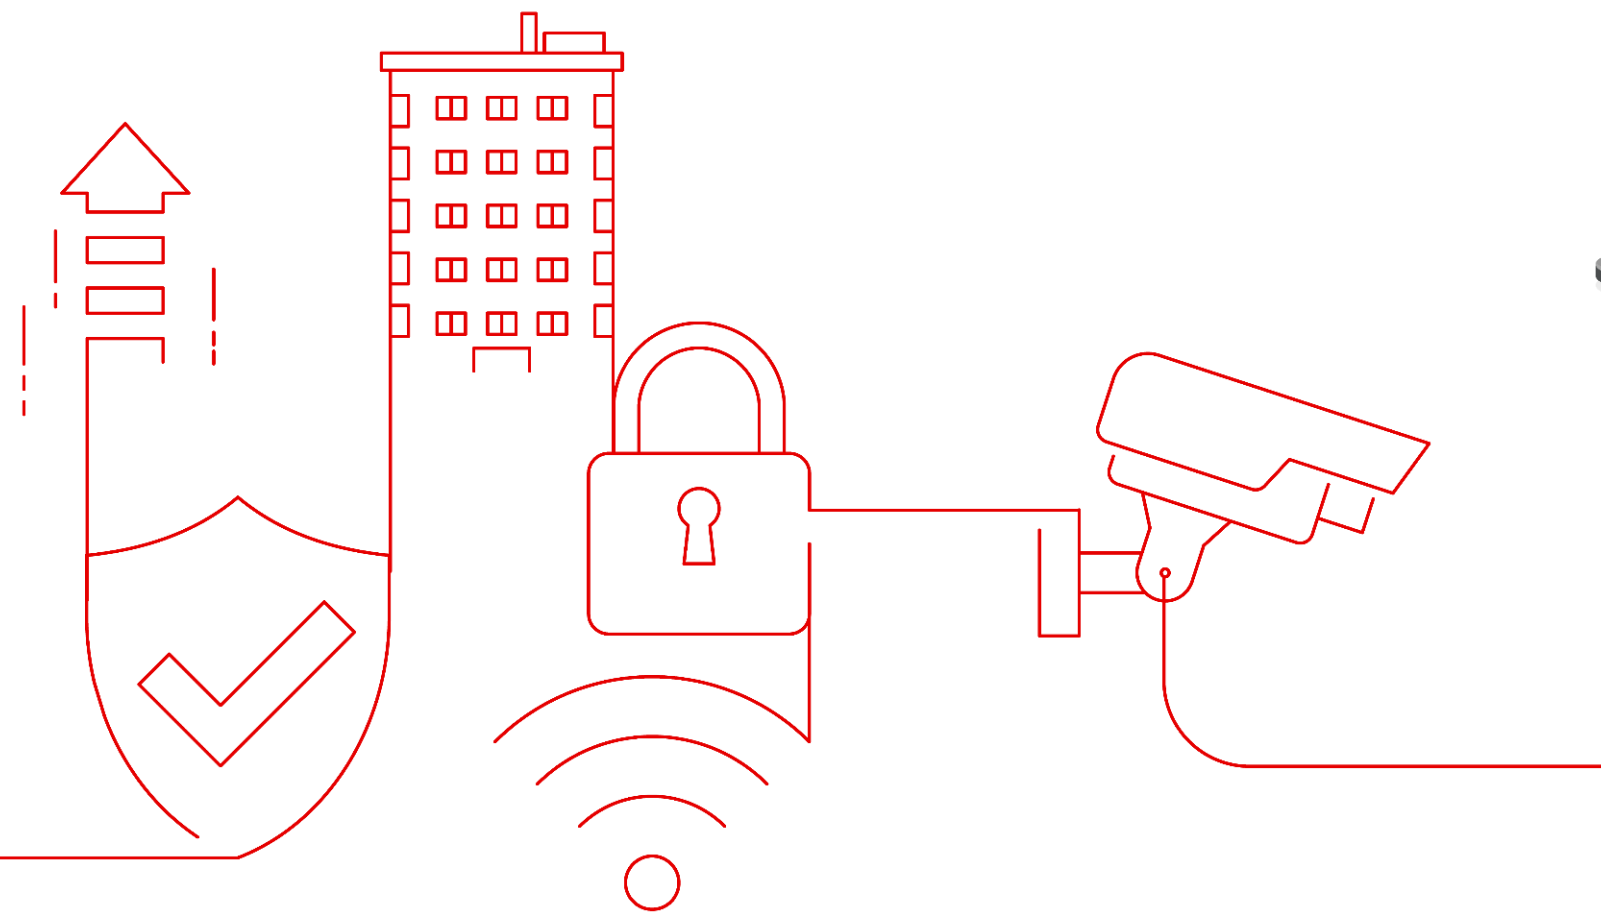

## Resolve

Our solution provides high-quality imagery you can rely on, ready for you to act, wherever you are.

# Fight back against disruptions with effortless monitoring

Protect your sites from the issues that ruin your day – and your bottom line.

## Wave goodbye to the hassle of expensive installation

Our agile solution is quick to install, without being hard mounted by an engineer.

## Capture high quality images you can rely on

The solution can provide HD imagery to an evidential standard, for your peace of mind.

## Monitor on your mobile

Our mobile-first technology means you can monitor your sites wherever you are.

## Save energy with green surveillance

Our camera is high-quality but low-power and with solar powered options available, it won't drain your resources.

# How can your business benefit?

Vodafone Smart Wireless Camera has proven useful in a wide range of businesses, including:

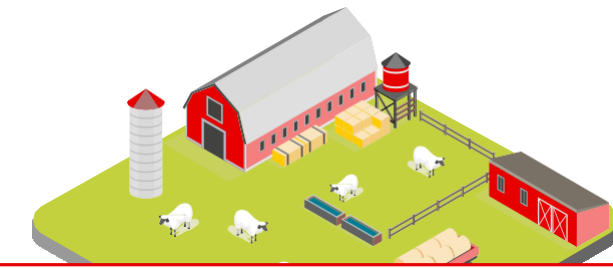

## Transport businesses

Managers are able to keep an active eye on site or depot activity to optimise workflow and manage security.

## Events management businesses

Fast and easy to set up and take down, making it ideal for short events like conferences.

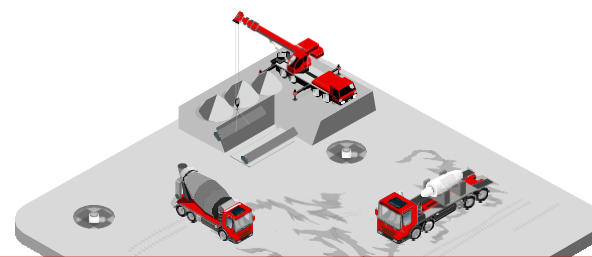

## Agriculture businesses

Farmers can monitor livestock and proactively manage risk such as fuel theft.

## Councils and Government Agencies

Rapid deployment of cameras to manage fly tipping hot spots as well as having “eyes-on” public infrastructure.

## Construction businesses

Construction managers can oversee projects, and keep a close eye on health and safety.

## Utilities businesses

Utilities managers can keep an eye on essential infrastructure and respond quickly if anything needs attention.

## Housing associations

Managers of housing associations can use surveillance to deter antisocial behaviour and gather evidence against offenders.

# Why Vodafone for Smart Wireless Camera?

## Truly flexible support

We have dedicated IoT specialists and offer dependable support during business hours

## All-in-one product

Take advantage of connectivity, hardware and analytics

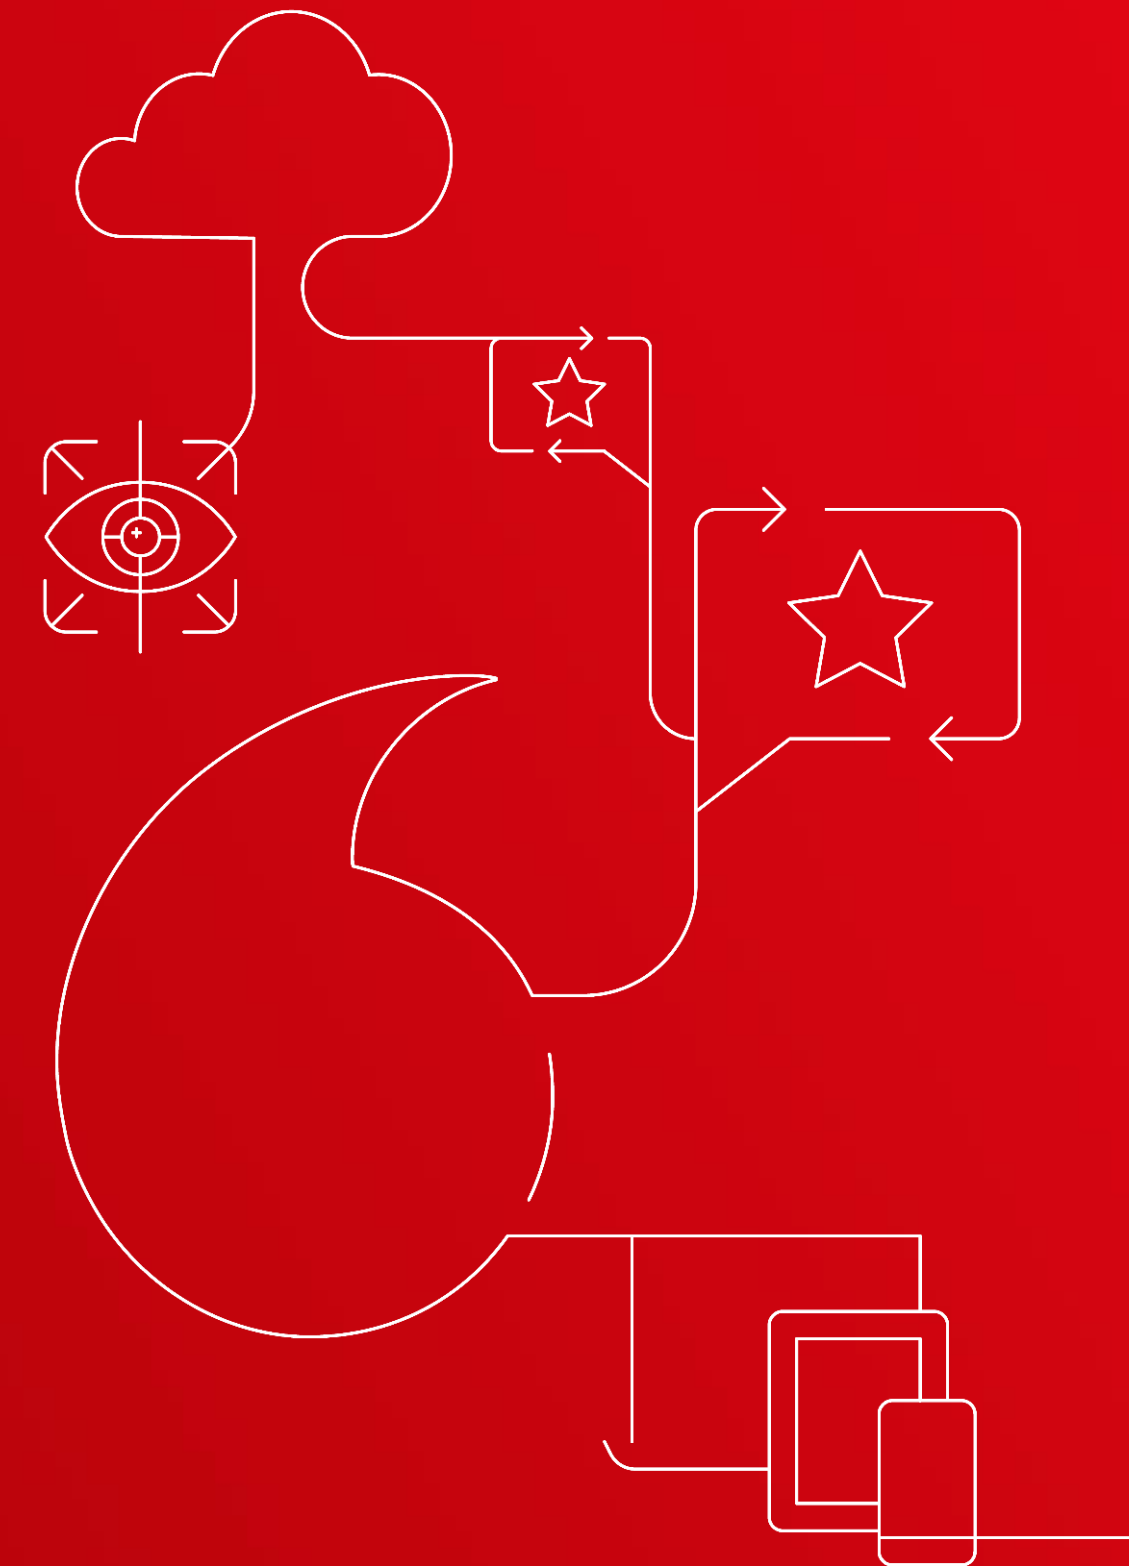

## Reliable, robust solution

Our camera comes with future-proof connectivity backed by our leading IoT management platform
