

Vodafone Enterprise Broadband

Fast broadband that grows with
your business

Together we can
vodafone
business

Our Proposition

With 24/7 support and premium fast fix solutions, Vodafone Enterprise Broadband gives you everything to help you stay connected and in control as your business grows.

Why does this matter?

Reliability and speed are key to help your business thrive. So it has never been more important to have broadband you can trust.

89% **45%**

of businesses with 50+ employees have access to the Internet.¹

of adults want to work remotely most of the time after the pandemic.²

With the traditional phone network PSTN being replaced by fast fibre connectivity in 2025, this is the ideal time to boost your business communications.

Vodafone

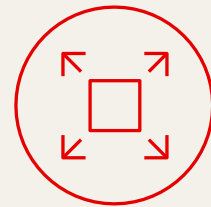

Enterprise Broadband (VEB)

is the solution

It Provides

broadband connectivity to large enterprise users and those with multiple sites.

It Gives

you the flexibility to manage multiple connections on one account and settle it with one centralised bill – a perfect way to keep track of several branch sites and homeworkers.

It's Built

for large businesses, offering a range of broadband packages for your residential or commercial sites.

Your components for success:

- Connectivity only or an optional Vodafone router
- Static IP address
- Assured internet access
- Optional phone line
- Better service levels, 24/7

Will VEB work with your current setup?

Vodafone Enterprise Broadband seamlessly integrates with your network and technology infrastructure.

Here's our wide range of business solutions that are a great fit with VEB.*

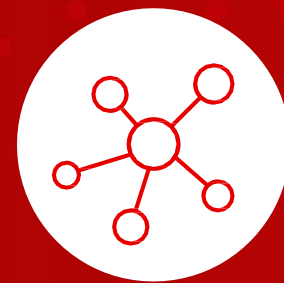

Evolved Voice over Public Internet SIP (EVoPI)

Designed to integrate smoothly with existing systems so you can make and receive calls over the internet.

Vodafone Business UC Cloud PBX for Microsoft Teams (Direct Routing)

Vodafone's secure and reliable voice and data networks enables staff to make and receive external phone calls from a single number, from virtually anywhere.

SD-WAN

A single, centralised network solution for easy set-up and simple management.

Unified Comms solution

An all-in-one business communications platform that brings together calling, meeting and messaging – delivered to your business over the internet.

Complete Connectivity

A professional-grade broadband and Wi-Fi solution for small and medium-sized businesses.

What's in it for you?

✓ Count on your connection

Vodafone Enterprise Broadband lets you choose from a complete range of connectivity speeds and options across our national network.

With next day broadband fix included as standard, and an optional premium 8-hour fix, you can count on your business staying connected.

✓ Flexibility to fit your needs

Whatever your business needs, now and in the future, our tailored solutions and flexible broadband packages are designed to adapt to you.

A simple switch to dedicated support

We'll provide full migration support to make switching a breeze.

And once you're set up, you'll have a dedicated account manager to help you as and whenever you need.

Choose from two support options:

- Our **Standard Support*** option comes with any Vodafone Enterprise Broadband package, and it guarantees that any incidents will be resolved by the end of the next working day.
- For a quicker service use our **Premier Support****, which will leave you incident clear within eight hours of logging an issue.

Our support services are live 24/7, so you can record a problem at any time and we'll do the rest.

* Standard support: Incident clear by the end of the next business day (Mon - Sat, excl. public holidays)

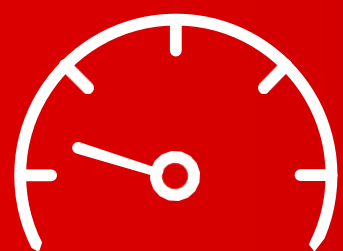

** Premier Support: Incident clear within 8 hours (Mon - Sun, 24/7)

Timelines apply to the majority of line faults. For more details see vodafone.co.uk/business/business-connectivity/broadband-for-business/enterprise-broadband Terms apply see vodafone.co.uk/terms
