The lists of countries and the applicable roaming rates can be found on [roaming](#), in the section Vodafone World Roaming Data, listed under Global Explorer 1000, Global Explorer 500, Global Explorer 100, Global Explorer 10

These are our Standard Roaming Data rates, you do not need to do anything to avail of them and you are only charged on the days you use data in a Rest of World country.

The “start of a new day” is based on 00:01am Irish Standard Time.

At the start of each day your data allowance renews.

Any unused data from your daily allowance cannot be carried forward to the next day.

Once the daily data allowance is used per MB rates apply for any additional usage on that day.

RED Roaming has higher priority in the RED Roaming countries, if you are on RED Roaming the RED Roaming rates apply.

We have two weekly roaming data bundles available for use in the Rest of World region.

The Roam Tour bundle provides an allowance of data for a set fee. Further details, including the eligible list of countries, can be found on [roaming](#),

The Roam Extra bundle provides an allowance of data for a set fee. Further details, including the eligible list of countries, can be found on [roaming](#),

The weekly roaming bundles can be used for up to 8 days including the day of purchase. The bundle starts immediately following purchase and we recommend not to buy the bundle until the day you depart from Ireland or on arrival at your destination.

The same weekly bundle can be used across multiple countries in the bundle footprint.

Once you have used a weekly bundle allowance or if the bundle has expired the Standard Roaming data rates apply (see Global Explorer rates). If you prefer you can buy another weekly bundle.

Customers on RED Roaming, visiting a RED Roaming country and with a weekly bundle will consume data from the RED Roaming allowance first and then from the weekly bundle.

Note the weekly bundles cannot be used in our Europe region.
